PERSONAL SUMMARY

I am a motivated, hard-working, punctual person who strives whilst working under pressure and towards tight deadlines. I enjoy the intrinsic benefits of learning new skills and building on previously acquired knowledge. I am extremely passionate about anything within the digital spectrum.

REACT PROJECTS

RECOMMENDATION APP*

The app onboards users via a chatbot gathering data to make personalised learning recommendations to users. [Link to App](#) (sign up required). Users are able to input more data to improve the algorithm. Learning assets are display in a netflix style. **Technologies:** React, Redux, Thunk, Saga, ES6, material-ui, react-simple-chatbot, GIT, Webpack, Reselect, Jest, Karma, Mocha, Enzyme.

ANALYTICS WEBSITE**

Part of a team of 3, whereby I built React components that displayed data from e-learning courses. Data was represented visually using D3.js library (Bar, line, pie charts etc). Types of data collected included; Time taken to complete course, incorrect answers, number of users who took the course etc. [Codepen example](#). **Technologies:** React, Flux, GULP, Webpack, Bootstrap, JIRA, Git, Confluence, Lodash, Mustache, Node.js, D3.js, jQuery, node-webkit, Javascript, Basic mongoDB.

SKILLS PROGRAMMES

Photoshop

Indesign

illustrator

experience design

Software languages

HTML(5) & CSS(3), Javascript, React, Vue, Redux, Saga, Material-ui, Bootstrap, Webpack, GIT, Mustache, Jest, Karma, Mocha, Enzyme, D3.js, Node, Basic mongoBD, Basic php.

EMPLOYMENT EXPERIENCE

Filtered (Front-End Developer) May 2017 - Present

Lead UI Developer on a React single page application. This entails implementing the architecture, planning, UX, UI and mentoring mid-weight colleague. **Technologies:** React, Redux, Thunk, Saga, ES6, material-ui, Radium, react-simple-chatbot, GIT, Webpack, Reselect, Jest, Karma, Mocha, Enzyme. **Projects:** Recommendation APP(React)*, chatbot-widget connecting to our API. **Achievements:** Contributed to open source library: [React-simple-chatbot](#). Wrote a [linkedin](#) article on, 'Ways to use motion in your UI'.

Eukleia (Front-End Developer) Aug 2016 - May - 2017

Provide creative, development direction and mentorship (design and code) to team. Work on external projects for blue chip clients creating web based, interactive e-learning courses. **Technologies:** JavaScript, jQuery, RWD, HTML5, CSS3, SASS, GIT, GULP, NPM, Greensock.

Eukleia (Web Developer) Aug 2015 - Aug 2016

Worked on internal projects (Agile with daily SCRUM on 2 week sprint). **Technologies:** React, Flux, GULP, Webpack, Bootstrap, JIRA, GIT, Confluence, Lodash, Mustache, Node.js, D3.js, jQuery, node-webkit, Javascript, Basic mongoDB. **Projects:** Analytics website(React)**, JavaScript framework development. Dynamo (Framework) that simplifies development of e-learning courses with complex structures without any restrictions on design.

Eukleia (Front-End Developer) April 2014 - Aug 2015

Worked on external projects for a broad range of well known international clients. Role was to create web based, interactive e-learning courses that involved both UI design and front end development. **Technologies:** JavaScript, jQuery, RWD, HTML5, CSS/CSS3, SASS, GULP, Greensock TweenMax.

MiP agency (Digital Designer) Oct 2013 - April 2014

A marketing and events agency who run a wide portfolio of established proprietary events for financial intermediaries. Worked on external projects producing websites and email campaigns to accompany events. **Technologies:** jQuery, RWD, HTML5, CSS/CSS3, SASS, purecss.

Mott MacDonald (Digital Designer) July 2011 - Oct 2013

Part of a design team offering a range of creative services to a global company spanning 120 countries, 12 sectors with over 15000 staff. **Projects:** Research/development of the design and UX of the new corporate website, Html-emails, web banner, animation and print material.
